Dear Bill, Kay, and Jack,

Just a note to thank you, from our family, for your assistance in liquidating a portion of our family estate. Your guidance was instrumental.

We appreciate that we were all dealing with a unique situation in liquidating an un-inventoried museum of widely varied items and family "Things" that were collected over several generations. These "Collections" are terribly difficult to put a price on or get a price for. However, we were very pleased with the results of the real estate (family home and adjacent acreage) and as a whole the real estate brought what we had hoped – which was more than the appraisals.

Surly, though painful, an auction was the best way to go and we feel that you all are the best in the business.

You and your associates worked with impressive professionalism derived from experience and that, I know, made the process go smoothly on the day of the auction. From beginning to closing, your staff handled our auction with the expertise we as a family needed.

On behalf of my mother Mary Douglass Foreman, my aunt Emma Lila Fundaburk, and my brother and sister I thank you for your expert assistance in a difficult process.

Truly,

Donlin M. Foreman

C.c. Mary Douglass Foreman
